SKO' GET VACCINATED!

THE FLU SHOT IS MORE IMPORTANT THAN EVER THIS YEAR.

The flu can be **dangerous** for our children and elders. Get your flu vaccine today to protect **our elders and future generations**.

The flu vaccine does not prevent COVID-19, but there are **many benefits** to the vaccine:
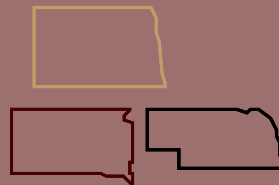

1. The flu vaccine **reduces** the risk of flu illness, hospitalizations, and death
2. Getting vaccinated yourself **may also protect those around you**
3. Getting the flu vaccine can **save healthcare resources** for the care of COVID-19 patients

In the U.S. during the 2019-2020 flu season the flu vaccine prevented an estimated:

7.5 million flu illnesses

More than the combined population of North Dakota, South Dakota, and Nebraska.

105, 000 flu hospitalizations

Enough people to fill more than 2,000 school buses.

6,300 flu deaths

The same as saving about 17 lives per day over the course of a year.

DID YOU KNOW?
